ASIS Associate Protection Professional® (APP®)

ASIS developed the APP certification to fill the gap for those looking for a first certification in the security management career ladder. It is intended for those with one to four years of security management experience.

ASIS developed the APP® certification to fill the gap for those looking for a first certification in the security management career ladder.

About the exam:

The exam consists of 100 scored multiple-choice questions and may also contain 25 randomly distributed “pre-test” (unscored) questions, for a total of up to 125 questions. The time allowed takes into consideration the review of pre-test items.

The exam covers tasks, knowledge and skills in four primary domains that have been identified by experienced security professionals as required areas of competency in this field.

Core Content

- Security fundamentals
- Business operations
- Risk management
- Response management
