⠿BTEC

Managing Security Surveys

Conducting a security survey is an essential skill for security managers, consultants, and other security professionals. Surveying is often fundamental to the design and functionality of a good security provision. This SRF BTEC Level 4 course will teach you how to identify particular threats to your business, premises and staff, and most importantly, how you can protect against them.

This course provides a step-by-step guide to the process of conducting an effective survey. You will leave the course having created and designed a template for conducting your own security surveys, which you can then use at your place of work.

During the training, our experienced instructors will guide you through each stage involved in conducting a survey. Learners will also learn how to use the security survey as part of your ongoing risk analysis and security strategy.

As part of the course you will be able to put in to practice the theory you have learnt by undertaking a physical survey of a site. This will help move the theory into practice, helping you to plan and undertake security surveys in the future.

COURSE INFORMATION

QUALIFICATION
SRF BTEC Level 4

Earn 4 CPE points upon completion of this course

The course will be of immediate benefit to anyone conducting or overseeing security surveys. By guiding you through the important stages from initial planning to final report, this course will enable you to quickly and efficiently assess your security strengths and weaknesses. It will equip you with the essential measures required to maximise your protection whilst meeting the realistic constraints of your budget.

Core content

Focusing on the core subject of Security Surveying, you'll cover all the elements needed to plan, deliver and report on the survey. A key part is delivering your findings, and making appropriate recommendations based on results.

- ☐ When to conduct a security survey
- ☐ How to plan and conduct a security survey
- ☐ What constitutes an effective security survey
- ☐ How to use crime prevention methods and techniques to reduce crime and loss
- ☐ How to use the security survey to prepare a risk assessment
- ☐ What security measures are available and when and how to use them
- ☐ How to write a security survey report and make effective recommendations

Assessment for this SRF BTEC Level 4 Award includes the completion of a workbook, which forms the basis of a written survey report.
