The Security Institute Courses

The Security Institute Certificate in Security Management

This course provides learners with an introduction to key ideas, techniques and issues central to professional security management. Learners will gain an understanding of policy, best practice and legislation associated with security management principles, including health and safety, asset protection and information security.

From discussing the formation of risk, to analysing potential causes and prevention of crime, this course is a must for supervisors or those seeking to make that move. The course comprises six modules, three of which are mandatory and three chosen from elective modules.

Core Modules

- Introduction to Security Management
- Security Department Management
- Information Security
